

# WORKSHOP “RT-32 ZOLOCHIV: CURRENT STATE, EU COLLABORATION, RADIO ASTRONOMY FRONTIERS”

October 03-07, 2021

## PRACTICAL INFORMATION

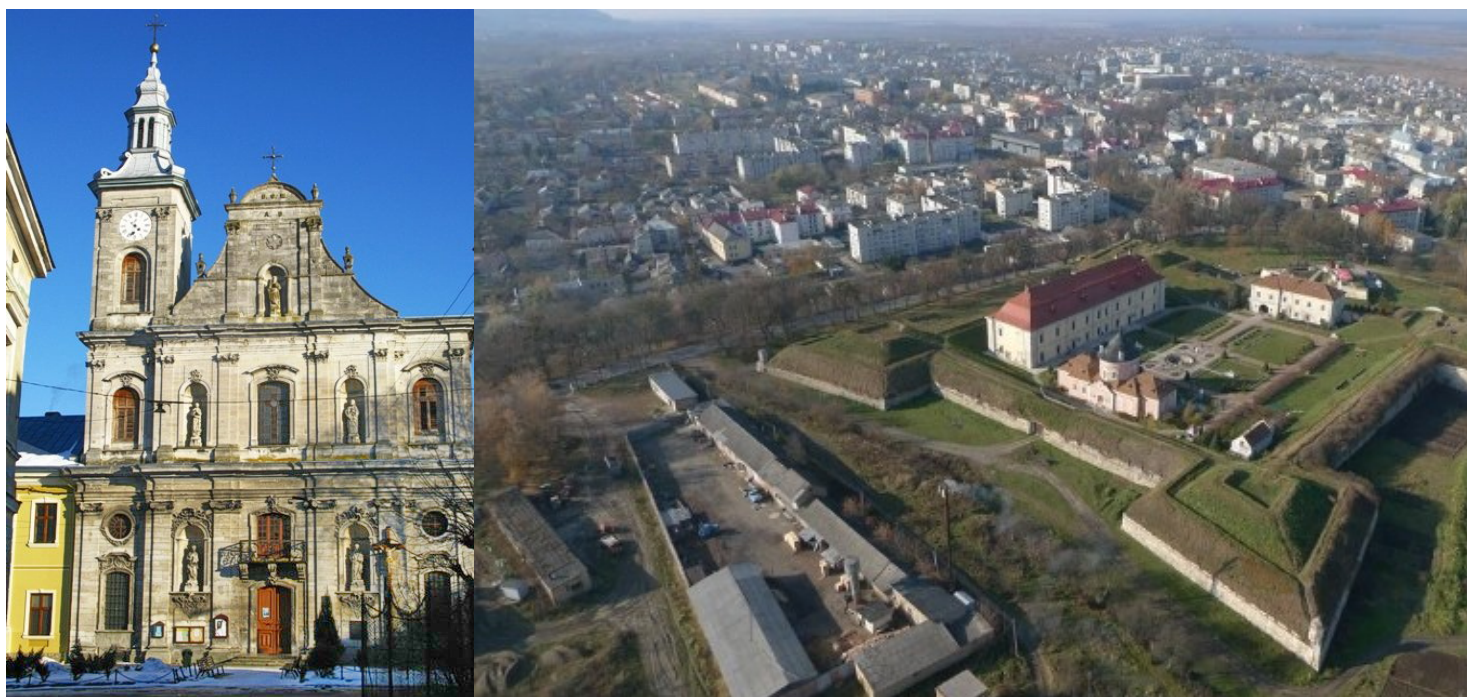

The Coronavirus pandemic causes some restrictions on the organization and conduction of mass events related to changes in border-crossing rules between countries. In order to minimize the risk of any complications when entering (leaving) Ukraine, we ask you to make sure in advance that the appropriate documents are available for border crossing during quarantine and to monitor possible changes in the rules of crossing borders during the conference.

Before the date of the conference all participants from Ukraine will be full vaccinated with one of the vaccines approved by the World Health Organization and certified in Ukraine.

### LOCATION

The workshop will be held at the Space Research and Communication Center situated near Zolochiv Town, Lviv Region (60 km. to the East from Lviv).

### HOW TO GET TO THE WORKSHOP

[Lviv](#) is the largest city in western Ukraine and the seventh largest city in the country overall.

You can fly to [Lviv International Airport](#).

The route network of the Lviv Danylo Halytskyi International Airport consists of 32 tributaries (30 international and 2 internal).

Modern Lviv remains a hub on which nine railways converge providing local and international services. Lviv railway is one of the oldest in Ukraine.

Currently, several trains cross the nearby Polish–Ukrainian border (mostly via Przemyśl in Poland). There are good connections to Slovakia (Košice) and Hungary (Budapest). Many routes have overnight trains with sleeping compartments. Lviv railway is often called the main gateway from Ukraine to Europe although buses are often a cheaper and more convenient way of entering the "Schengen" countries.

Kyiv is the capital and most populous city of Ukraine. It is in north-central Ukraine along the Dnieper River.

You can also fly to Kyiv to the airports [\*Igor Sikorsky Kyiv International Airport Zhuliany\*](#) or [\*Boryspil Airport\*](#) and come to Lviv by train to [\*Lviv Main Railway Terminal\*](#).
